

University of Virginia Job Summary

Job Code:	Job Title:	Network Planning Analyst I
UVA Survey Code:	UVA Survey Code Title:	
Pay Band:	Career Path:	Network Engineering
FLSA Status:	Management or Individual Contributor:	Individual Contributor

Position Summary: Describe below the primary purpose and function of this job.

Assist in the planning and evaluation of existing network systems and network infrastructure. Assist in network planning, engineering and architecture; conduct assigned projects and make recommendations for improvement/upgrades. Assist in developing technical standards and application interfaces. Provide technical assistance and resolution for network problems.

Key Roles & Responsibilities: List up to 6 key roles and responsibilities of this job.

1. Evaluate existing network systems and assess resources required to maintain and/or expand service levels.
2. Provide assistance in network planning, engineering, architecture, and the development of technical standards and interface applications.
3. Plan, test, recommend, install and maintain network monitoring and management hardware and software.
4. Analyze and resolve technical problems for established networks.
5. Research and evaluate new products as assigned.
- 6.

Expertise: Describe the requirement for knowledge and expertise about the subject area as well as how various parts of the University work together to achieve objectives. Explain the degree of understanding required of the industry and university environment.

Incumbent is required to have a basic understanding of his/her discipline including all required certifications as well as a basic understanding of the business environment of a large university system. Incumbent is expected to maintain currency of knowledge with respect to relevant state-of-the-art technology, equipment, and/or systems.

Incumbent should have basic knowledge of computer engineering; network architecture; network hardware, monitoring and management software; network protocols; network services and network security methodologies. Incumbents should also have the ability to design and coordinate the installation of high-speed data network switching, routing and security equipment; determine, troubleshoot and resolve network problems; program software to monitor, manage and integrate solutions to monitor and manage a complex high-speed network supporting data, voice and video.

Problem Solving: Describe the nature and complexity of the problems this position encounters on a recurring basis. Include information regarding the level of innovation required, if any, and include mention of environmental factors that may add to the complexity of resolving issues.

Incumbent will address routine problems and will use judgment in selecting among authorized procedures. Incumbent seeks assistance when guidelines are inadequate, significant deviations are proposed, or when unanticipated problems arise.

University of Virginia Job Summary

Nature & Area of Impact: To what degree does this job affect the University (i.e., through interactions with faculty or students, making decisions, defining or setting strategy, etc.)? What is the breadth of the impact that this job has, either positive or negative (i.e., affects own team, department, function, business unit, entire university, etc.)?

Impact is typically limited to the team/department for which the incumbent works. Daily work quality can affect the productivity of students, faculty and/or staff.

Interactions / Interpersonal Skills: Describe the nature and level of interactions this job has with others, both internally and externally. Explain any specific interpersonal skills necessary to successfully perform this role (i.e., negotiation skills, represents business at external events or to governmental bodies, etc.).

Interactions are typically with fellow team members, but the incumbent may have interactions with assigned student, faculty, or staff clients. Incumbent should possess good verbal and written communication skills to convey technical guidance and information to users and to provide excellent customer service.
